

CONTENTS OF VOLUME 29

Number 1

The Description of the High-Temperature Plasticity of Metals by Stochastic Processes	1
ELMAR A. STECK (FRG)	
Temperature Field Due to Multipass Welding of Radioactive Waste Containers	21
R. O. ATTINGER (Switzerland)	
Instability of a Circumferential Crack in a Piping System Subject to Bending and Tensile Loadings	31
E. SMITH (UK)	
Boundary Integral Method for Torsion of Composite Shafts	41
S. I. CHOU & J. A. MOHR (USA)	
Structural Problems of the NET Basic Machine	57
E. SALPIETRO (FRG)	
Fatigue Analysis of Crack-like Geometrical Discontinuities	79
R. L. ROCHE (France)	
Announcements	95

Number 2

Approximate Seismic Analysis of Piping or Equipment Mounted on Elastoplastic Structures	97
ROBERTO VILLAVERDE (USA)	
Evaluation of a Thermal Qualification Data Base	121
S. H. SHANN & K. R. MERCKX (USA)	
Creep–Fatigue Behavior of 2 $\frac{1}{4}$ Cr–1 Mo Steel in Air and Vacuum	129
T. ASAYAMA (Japan), S-Z. CHENG (People's Republic of China), Y. ASADA, S. MITSUHASHI & Y. TACHIBANA (Japan)	
The Viability of the K_{Ia} Procedure for Predicting Crack Arrest under Displacement Controlled Loadings	147
E. SMITH (UK)	

Modal Analysis Using MDSI Method	153
ROBERTO LEO & MAURIZIO MAZZOLI (Italy)	
The Chernobyl Accident: A Challenge on PSA as a Tool for the Prediction of Event Scenarios beyond the Design Basis and for Safety Improvements . . .	167
P. KAFKA (FRG)	
A Microstructural Approach to the Mechanical Response of a Class of Polycrystalline Systems: I. Theoretical Analysis	177
Y. M. HADDAD (Canada)	

Number 3

A Dislocation Model for Creep in Engineering Materials	197
N. M. GHONIEM (USA), J. R. MATTHEWS (UK) & R. J. AMODEO (USA)	
The Governing Factors of Post-Cracking Behaviour of Reinforced Concrete Wall in In-plane Shear	221
KAZUYUKI SUMI, MINORU OSA & SHIGEYA KAWAMATA (Japan)	
Overview of Power Plant and Industrial Facility Performance in Earthquakes, 1985-1987	249
N. G. HORSTMAN, P. I. YANEV & D. L. McCORMICK (USA)	
Etude du Comportement Mécanique des Matériaux Biphases au Moyen de la Méthode des Eléments Finis	257
LISE DURAND & CHRISTIAN THOMAS DE MONTPRÉVILLE (France)	
Announcement	287

Number 4

Irradiation Growth in Zirconium Alloys under High Fluences	289
TOSHIO KUBO (Japan)	
Evaluation of Cumulative Damage Failure of a Reactor Feed Vertical Pump under Seismic Excitation	313
T. IWATSUBO (Japan)	
Test of Wall/Basemat Junction Region of a Prestressed Concrete Containment	329
N. W. HANSON, D. M. SCHULTZ, J. J. ROLLER & H. T. TANG (USA)	
Creep, High-cycle Fatigue and Cyclic Creep in Copper at 500 °C	345
P. LUKÁŠ, L. KUNZ & V. SKLENÍČKA (Czechoslovakia)	
Obtaining the Specific Risk of Torsional Fracture Function of a Prismatic Bar having a Regular Polygon Cross-section	359
G. DIAZ & P. KITTL (Chile)	
Relaxation of V-Belt Stresses	373
MARIAN DUDZIAK & MICHAŁ ANISIMOWICZ (Poland)
